

Errata and typos in *Follies of France*

For the nit-pickers and hair-splitters amongst the readers, and for a possible editor of a future reprint, finicking Rita insisted to add errata for the *Follies Journals 9 & 10, Follies in France* at the beginning of the 2013 Addenda. In 2016 we decided that these (on the whole very minor) errata should not be too conspicuous, and assembled them in a separate document with the new notation of the pages involved, as FiF;pagenumber, and where we can enlarge them with errata from FiF III (if any...).
