

GAZETTEER
LIST OF FOLLIES, GROTTOS AND GARDEN BUILDINGS IN FRANCE
version March 2017

This is an attempt at putting together a list per department of follies in France that Folly Fellowship members might be interested in when travelling, as spin-off of our research for Follies journal 9, 10 and 15: *Follies in France I, II and III*, and their Addenda on the FF website. Our hope is that this will inspire others to come up with a complete survey of architectural eccentricities in France. Any additions to this list will be very welcome. If you know more than we do, please write in and tell us all about it. The address is Rita Boogaart, Tarantostaat 41, 5632 RE Eindhoven, the Netherlands.
email: prboogaart@gmail.com

The word folly is used here in its loosest sense, to cover follies, grottoes, garden buildings, rustic cement, outsider (art) gardens, romantic gardens and any eccentric architecture with folly-like qualities. Generally speaking we only mention half-follies like ice-houses, orangeries, dovecotes, bridges etc. if they are connected to real follies, unless they are real follies or exceptionally rich or peculiar examples themselves, if you see what we mean.

- 01 Ain Rhône-Alpes
Champdor castle: 1846 separate six-storey-high (clock)tower with sundial
Ste-Euphémie, Le Boujard castle: lone decorated tower with builders' inscriptions of 1850
